

FEDERAL STAFFING SOLUTIONS

Getting to know us

"A background on our core value and solutions"

Celebrating 10+ Years Delighting Customers

Our History... Proving Our Value Everyday

Our company was founded in 1999 as an Oregon Corporation, providing technology design, project management and staffing solutions. Over the next 5 years, we grew exponentially into a regional corporation serving the Northwest and Midwest United States. The next 5 years provided us an opportunity to grow into larger markets like New York and Los Angeles. Currently we are expanding our offering into five theaters of operations servicing global corporations in more than 27 countries.

The bonsai tree is the symbol of our disciplined controlled growth. The ever changing water is a symbol of our commitment to continual positive change while anticipating and meeting the needs of our clients - working in perfect harmony to ensure our value to you.

Core Value

We are a consulting and recruitment firm specializing in the fields of information technology, telecommunications and professional services. We provide technical staffing, professional placements and custom application development.

We understand that you will receive multiple proposals from consulting and placement firms. Nevertheless, we are confident that we have something extra to offer: technical capability and superior service based on our core values.

Our Services

Designed specifically to meet your needs...

Find and provide permanent employees in the Information Technology area across a diverse set of vertical markets.

Find and provide Consultants specializing in Information Technology.

Cradle to grave project based solution offerings.

Manage small complex projects to large scale global projects specializing in Information Technology.

Our Offerings

Staff "IT" Now is a global resource for the temporary staffing of large scale IT projects. We provide multinational coverage with the ability to support local currency billing. At Staff "IT" Now, we efficiently handle the time consuming task of initial sourcing and pre-screening candidates in order to pinpoint only the most qualified prospects. While our sourcing specialists deal with the multitude of details, hiring managers have the time to focus on the final selection process and the continuity of their business.
