

You can't teach an old dog new tricks. So get a new dog.

THE NEW DOG IN TOWN.

We are experts at communication system design and technology planning. Our experience covers your entire communication system from the PBX to LAN to Audio/Video - we have you covered. We can assist in specific technology requirements such as a Data Center or Presentation Room design. Our staff has more than 450 years of combined experience – and they stand ready to help you. Yeah – it's a new name, but it comes with a lot of experience.

Are you aware that WAN connectivity prices are falling on a weekly basis? Do you know who the major suppliers of WAN connectivity are in your area now? We can help you secure competitive bids for your connectivity needs.

We can help you with your technology needs assessments and budgeting. Our expert staff can assist your CXX level management in the development of Business Continuity and Disaster Recovery plans as well. No other technology firm has our experience of successful technology integration into the Architectural package. No other firm can match our ability to ensure a complete systems design. A Formare Technica Ltd sales engineer will soon be giving you a call to discuss our value to you – we promise it will be time well spent.
